

Children's mental health pledge

We will provide safe, welcoming and inclusive environments for children and young people to be active in.

We will enable young people to support their mental health by providing opportunities to be physically active in the way they enjoy.

We will listen and learn. We will respond to the needs of young people in our community and develop channels for open communication.

We will campaign for cleaner, greener and healthier environments for Staffordshire to ensure a brighter future for our young people.

**TOGETHER
ACTIVE**

Staffordshire & Stoke-on-Trent
